CMS-10466 Patient Protection and Affordable Care Act; Exchange Functions: Eligibility for Exemptions

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Type of Information Collection Request: Revision of a previously approved collection; Title of Information Collection: Patient Protection and Affordable Care Act; Exchange Functions: Eligibility for Exemptions; Use: The data collection and reporting requirements in "Patient Protection and Affordable Care Act; Exchange Functions: Eligibility for Exemptions; Miscellaneous Minimum Essential Coverage Provisions" (CMS-9958-F, 78 FR 39518), address federal requirements that states must meet with regard to the Exchange minimum function of performing eligibility determinations and issuing certificates of exemption from the shared responsibility payment. In the final regulation, CMS addresses standards related to eligibility, including the verification and eligibility determination process, eligibility redeterminations, options for states to rely on HHS to make eligibility determinations for certificates of exemption, and reporting. The data collection and reporting requirements included in this information collection request are critical

to the basic ability of Exchanges to determine eligibility for and issue certificates of exemption, and will also assist Exchanges, HHS, and IRS in ensuring program integrity and quality improvement.
